- Minimum 3-year/36,000-mile warranty
- Manual wheelchair tie-down system
- Fully crash tested
- Lowered ramp angle
- Remote Control Entry
- The PowerKneel™ System

SUMMIT

In 2008, VMI is introducing the Honda Odyssey with the VMI Summit conversion which offers all of the outstanding vehicle and mobility accessible modifications as the Northstar conversion but now with a fold-out ramp system. The Summit conversion has been exclusively designed for the Honda Odyssey and provides a long list of technical advantages and safety features. For those customers looking for a fold out ramp system in one of the finest minivans available, look no further, the Honda Odyssey with the VMI Summit conversion is for you. In a recent focus group, the Honda Odyssey with the VMI Summit conversion was preferred by more than 4 to 1 when compared to the leading competitor's fold out ramp system.
