

XL-SEAT

Motorised transfer board

Features:

Easy to use with motorised up and down functions

Cushioned retractable support arm for safe transfers

Removable transfer board makes it easy for other drivers to use the vehicle

All the seat's adjustment functions remain operational because the compact equipment fits neatly between the seat and the "B" pillar

Specifications:

Lowers to the height of the rocker panel (floor of the vehicle) or can be stopped at any height to make transfers according to your needs

Seat covered with vinyl surface and slight cushioning for easy transfer

Maximum capacity: 275 lbs

HI-LIFT >>>>

Optional wheelchair lifter

Features:

Motorised lifting and lowering functions

Motorised in and out swing mechanism

Designed with a manual track to help you easily guide the wheelchair into place behind the driver's seat

Compact design takes up very little space

Specifications:

Ideal for foldable or rigid manual wheelchairs

Maximum capacity: 75 lbs

Installation:

The XL-SEAT and HI-LIFT have been designed to work as a pair. They install easily into the original seat mounts with no structural modification to your vehicle. They are also easily removed to return the vehicle to its original condition without affecting the resale value.
